I, Sheriff Malin Parker would like to express my complete support of Congresswoman Yvette Herrell's Protecting Americans from Unnecessary Spread Upon Entry (Pause) from COVID-19 Act of 2021.

As New Mexico continues to be locked down and our movement restricted, it would not only be contradictory to our current governors' health mandate, but irresponsible to our State to allow our borders to be open. There could not be a responsible way to open our borders when it is a requirement of our own citizens to quarantine when traveling.

In closing, the economic crisis that New Mexico is experiencing due to the governors health order has put the economy of New Mexico in such a state, the we as New Mexicans, would not be able to support the influx of people coming into New Mexico.

Respectfully,
